

Wacky Bird Pot Sitters

with Diane Enger

Thursday, May 16th, 1 to 4

\$40 A3L members, \$50 nonmembers, plus \$15 supply fee, includes glass cutting, accessory glasses, use of tools and firing. Also attaching your birds to the steel rods for “planting”

Minimum of 3 students, maximum of 6 students

In this workshop we will create two pot sitters, approximately 14 inches tall. Using glass enamels and a variety of accessory glass, you will be able to design your birds to your liking. They can be as colorful and unusual as you would like them to be.

This class is for beginners and intermediates.

There is minimal glass cutting for beginners and it gives intermediate fusers the chance to combine glasses and improve their glass painting skills.

These fun pot sitters add interest and color to your potted plants.
